Georgia Southern Online Business Programs Recognized for Excellence in Latest U.S. News & World Report Rankings

January 13, 2017

The Georgia Southern College of Business graduate programs have been recognized for excellence by *U.S. News & World Report* for the best online programs among colleges and universities for 2017.

Three of the College's online graduate programs were ranked in the top 50 of their respected ranking list, to include the online Masters of Business Administration (MBA) program and the online graduate business programs (non-MBA), which includes the online master of accounting (WebMacc) program and the Master of Science in applied economics (MSAE). The 2017 Best Online Graduate Business Programs rankings assess master's-level business degree programs that are not MBA programs.

The online MBA at Georgia Southern, tied with five other universities, ranked 36th out of nearly 200 ranked programs on the 2017 Best Online MBA Programs list. Additionally, online graduate business programs (non-MBA), WebMacc and MSAE, came in at 45th out of more than 100 schools included in the list.

U.S. News publishes numerical ranks for only the top three-fourths of each ranking category, and selects factors to assess each program in the categories of student engagement, admissions selectivity, peer reputation, faculty credentials and training, and student services and technology.
